

Maximise your waste disposal efficiency with our fork-mounted skip compactor, ideal for use with roll on/off skips.

This compactor attachment easily slips onto standard forklift forks and is secured by heel pins for safe forklift retention

With its innovative design, the compactor allows you to quickly and effectively condense waste, making the most of your skip's storage space. Its long drop feature also ensures compatibility with large, tall skips

Model Ref	Compactor Footprint Size (mm)	Floor to Underside of Pocket Height (mm)	Max Fork Size (mm)	Fork Spread (mm)	Approx Weight (kg)
SK-2	1000 x 1200	1510	140 x 65	320 (o/s to o/s)	800

Features & Benefits

- Long drop from compactor to floor ensures the attachment can be used with large, tall skips
- Heel pin locking mechanism to guarantee secure locking to forklift forks
- Constructed with robust materials for durability and reliability
